Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A small-scale farmer	Select the most suitable crop for my land to improve crop productivity.	I am unable to determine which crop is best suited for my soil and environmental conditions.	I lack access to accurate agricultural data and a reliable crop recommendation system.	Confused, worried, and uncertain about my farming decisions.
PS-2	An agricultural advisor	Help farmers select the most suitable crops based on soil and environmental conditions.	I find it difficult to analyze soil nutrient values and climatic parameters manually.	I do not have access to a data-driven crop recommendation system that provides accurate predictions.	Concerned that farmers may make incorrect crop selection decisions, resulting in reduced productivity.
