Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

User Persona

Primary User: Small and Medium Farmer

Think & Feel

- Wants higher crop yield
 - Wants to reduce farming costs
 - Worried about crop diseases
 - Concerned about unpredictable weather
 - Wants quick expert advice
 - Wants better profits
-

Hear

- Advice from neighboring farmers
 - Agricultural officers
 - News about climate change
 - YouTube farming channels
 - Government awareness programs
-

See

- Crops affected by diseases
 - Rising fertilizer prices
 - Weather uncertainty
 - New farming technologies
 - Market price fluctuations
-

Say & Do

- Takes pictures of affected crops
 - Consults local farmers
 - Uses WhatsApp farming groups
 - Searches YouTube for solutions
 - Visits fertilizer shops
-

Pain

- Difficulty identifying diseases
 - High farming costs
 - Water wastage
 - Low productivity
 - Delayed expert advice
 - Market uncertainty
-

Gain

- Early disease detection
- Better crop yield
- Reduced costs
- Smart irrigation
- Accurate fertilizer recommendations
- Higher income
- Quick AI assistance in local language
